

 **ThinkSIGN**  
Presents

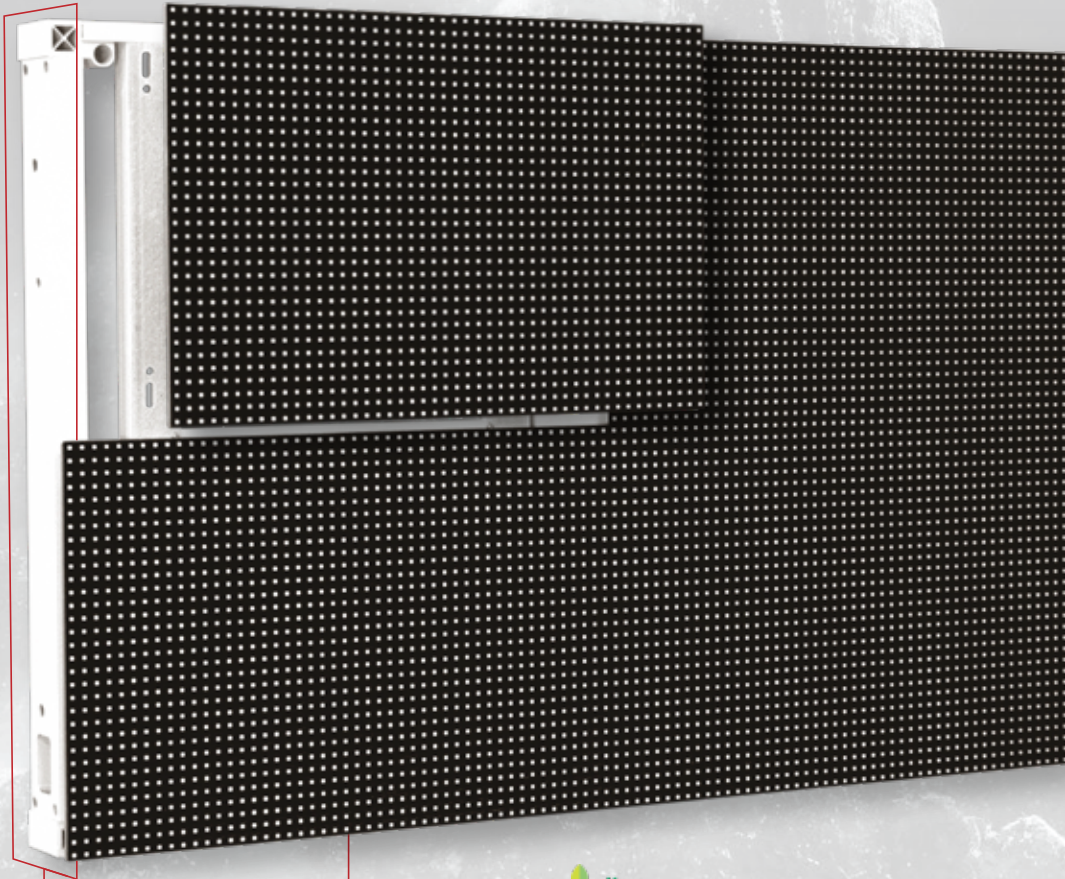

**ALLURA**  
The All Aluminum EMC

# Simply **Easy**

## **NO ASSEMBLY NEEDED**

Arrives in your shop ready-to-hang

 **LOWER POWER BY 30%**

Allura's energy efficiency means your customers will not have to incur costly upgrades to their power supply.

**ALL ALUMINUM FRAME IS 100,000 TIMES COOLER**

The aluminum design dissipates heat 100,000 times more efficiently than plastic, ensuring Allura's reliability in conditions that cause most EMC failures. No fans necessary!

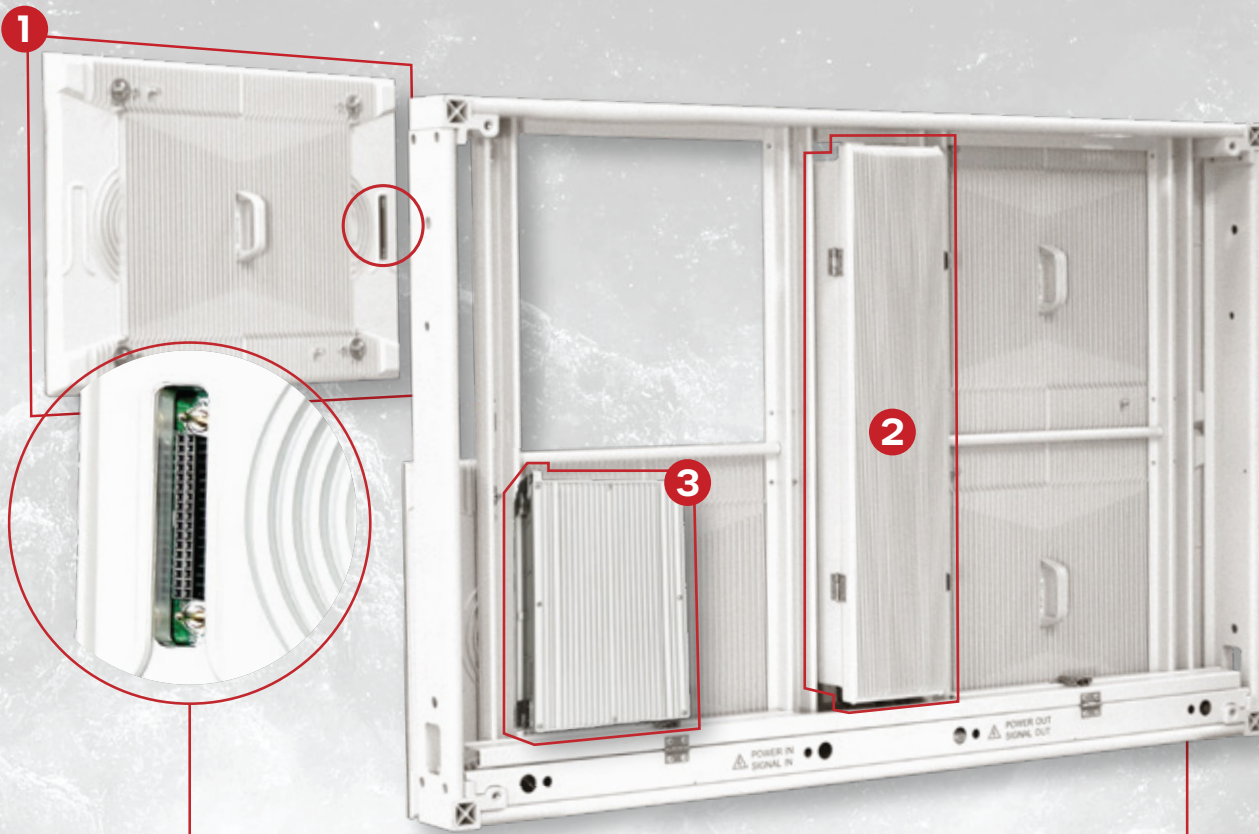

# Premium Quality

## ONLY 3 COMPONENTS

Allura's elegant, efficient design features just three components-

1. Module
2. Hub
3. Controller

### SINGLE POINT OF CONNECTION

Data and Power share one combined connection point. Fewer connection points mean fewer points of failure.

### CUSTOM BUILT FOR YOUR NEEDS

Our modular design allows you to scale your Allura EMC to your specifications.

# Easiest Software

## No setup required

Just log in and you're good to go!

First and only full function mobile software for LED Signs

Easiest to use - Quick, convenient, intuitive features

Supports Mac, Windows, iOS, Android

Proprietary cloud software design offers unparalleled experience
